

# Nebraska 4-H Diamond Clover Program

The 4-H Diamond Clover Recognition Program is designed to complement our dynamic 4-H tradition, this noncompetitive program recognizes the accomplishments of 4-H members from 8–19 years of age.

Through the Diamond Clover Program, Nebraska 4-H recognizes young people for their accomplishments and life skill development. It offers the opportunity for youth to practice the life skills they are learning and be rewarded for their work. The Nebraska 4-H Diamond Clover Recognition Program is designed to assist all 4-H members in their 4-H journey to becoming capable, contributing and competent adults.

Nebraska 4-H is pleased to provide the Diamond Clover Recognition Program as a resource for 4-H'ers and those who help them achieve their life skill goals.

# Nebraska 4-H Diamond Clover Program Encourages Youth to Engage in a Variety of Projects and Activities

The Nebraska 4-H Diamond Clover Program is designed to encourage 4-H youth to engage in a variety of projects and activities that will enable members to acquire the life skills necessary to lead successful lives as competent, caring and contributing citizens. The program's overall goal is to provide 4-H members a rich and diverse learning experience.

The program consists of six levels that require a 4-H member to plan and report a broad range of age-appropriate accomplishments. The program is designed to enable every 4-H member willing to exert the effort an opportunity to be recognized, regardless of how they are involved in 4-H.

The Nebraska 4-H Diamond Clover Program is a new, statewide form of recognition and is not intended as a replacement for existing recognition programs. Participation in this program should be considered optional, as requiring 4-H members to participate is not appropriate.

# Frequently Asked Questions

## At What Level do 4-H Members Begin?

The program is designed for 4-H members ages 8 and up to begin at Level 1 and progress through Level 6, one level per year, achieving each recognition level only once. Youth who are older when joining 4-H may begin at a higher level (2–4) as is mutually agreeable to the participant and the parent/guardian or leader. In order for a 4-H'er to begin at Level 5 or 6, the extension staff must also be in agreement.

## What are the Requirements of Each Level?

Levels 1–6 requires participants complete a specified number of accomplishments (or more). The 4-H member chooses from the accomplishments listed for each level. The accomplishments are age appropriate and increase in quantity and difficulty for each level. The accomplishments have been created to enable any 4-H member, no matter how they are involved in 4-H, to be successful. Parents/guardians, leaders and extension staff may suggest other accomplishments — comparable to those provided — to improve the individual learning experience of each 4-H member.

Level 6 also requires a major service-learning project that benefits a 4-H member's community. 4-H members should plan on investing over 100 hours of service. It may take up to 24-months to complete the project. Note: the Level 6 service-learning project must be completed by the end of 4-H membership eligibility.

## How are Accomplishments Documented?

All Diamond Clover Program Levels use a Plan & Report form. The forms are available on the Nebraska 4-H Web site (<http://4h.unl.edu>) or at your local county extension office. They are available in two electronic formats: as fill-in pdfs (anyone with Adobe Reader 7 or 8 can fill-in, save and print the pdf files) and Microsoft Word. 4-H members may also legibly handwrite on the forms.

At the beginning of the 4-H year (timing is somewhat flexible), 4-H members complete the front page (PLAN portion) of the Plan & Report form. Participants print, sign and save the plan to accompany the report at the end of the 4-H year. 4-H members may fill out the REPORT portion of the form as they complete their accomplishments throughout the year, or at the end of the 4-H year. At the end of the year (check with your extension office for deadline), print, sign and mail your Plan & Report form to your extension office.

Level 6 uses additional forms for the service-learning project. These forms are also available on the 4-H Web site or at your extension office.

## Who Approves the Forms?

Levels 1–4 require the approval of a 4-H member's parent/guardian. If the 4-H member belongs to a 4-H club, club leader approval is also required (if 4-H member belongs to more than one club, choose one leader to work with). Levels 5 and 6 require the approval of a local county extension staff member. For the Level 6 service-learning project, proposal and final report forms require the approval of a locally appointed Diamond Clover Advisory Committee and the State 4-H Program Administrator (or designee).

## Is Completing a Project Necessary to Complete a Level?

Since valuable learning experiences occur from completion of 4-H projects, parent/guardian and/or leader should encourage members to complete at least one project at each level. However, as an option 4-H members may be involved in a 4-H group or activity not related to project work.

## What Does Completing a Variety of Projects Mean?

4-H members are encouraged to choose at least one project from a different project category for each level. While a 4-H member may enroll in a beef project every year, they are strongly encouraged to explore different projects to individually benefit from the 4-H experience.

## Is it Possible for a 4-H Member's Plan to be Amended?

Yes. Due to unforeseen circumstances (loss of an animal, loss of a garden from drought, etc.), a 4-H member may amend their plan. Levels 1–4 can be amended by agreement between the 4-H member and parent/guardian and/or leader. Levels 5 and 6 may be amended by agreement between the 4-H member, parent/guardian, and/or leader and local county extension office.

## How and When are Successful 4-H Members Recognized?

4-H members will obtain a certificate of achievement at the end of the 4-H year once they have completed a level. Levels 1 through 5 are awarded by the local county extension office. Some counties may choose to recognize recipients at achievement nights, county fair celebrations or similar events. Level 6 – Diamond recipients will be presented a certificate and diamond clover pin by the state 4-H office. The state 4-H Web site will list all youth who have earned the Diamond Level.

## What is the Origin of the Diamond Clover Program?

Maryland 4-H introduced a Diamond Clover 4-H Award Program in 2004. 4-H Educator Dan Tabler (now retired) had the original vision and was the primary author.

# Level Accomplishments

For each level, the Nebraska 4-H Diamond Clover program provides a list of accomplishments from which 4-H'ers choose their goals. The accomplishments are age appropriate and increase in quantity and difficulty for each level. At the beginning of the 4-H year, participants PLAN what to accomplish and at the end of the 4-H year, they REPORT on their completed accomplishments. Successful completion of a Level's Plan & Report form results in a 4-H'er earning that level of the Diamond Clover program (Level 6 also requires a service-learning project).

### **PART 2 – DIAMOND CLOVER SERVICE-LEARNING PROJECT**

This is the major service-learning project of the Nebraska 4-H Diamond Clover Program and requires the 4-H'er to complete a project that benefits his/her community. The 4-H'er will submit a detailed proposal that includes:

1. Overview
2. Resources
3. Timeline
4. Time Log
5. Approvals and Permits
6. Letters of Support
7. Evaluation Plan
8. Documentation Plan

When the proposal is approved, the local Diamond Clover Program Committee will forward it to the State 4-H Program Administrator (or designee) for a final signature.

When the service-learning project is complete, a final report will be required outlining what was accomplished.
